- Our current Doors software is no longer supported by the company that created it and is not compatible with current PC operating systems (including ours). Upgrading will require a conversion of our database to the new format, purchase of new software. It will also enable us to learn more about how the club is used by the membership for capacity analysis.

- scholarship/relief by application and review and approval by a small committee composed of the financial secretary and a maximum of two others
- application is for two quarters
- can be extended by reapplying
